

**Dear FBC Family**

**The Family Life & NextGen Ministries at FBC are happy to announce that with the relaxing of the COVID restrictions we are able to see some things get back to a "new" normal. Here is what we are doing here to help provide a safe place for people to return to gathering together this summer.**

**~We are still providing masks and hand sanitizer stations, while making the wearing of masks an option so that all can feel safe.**

**~We are still providing safe social distancing practices in the sanctuary, with some of the pew sections roped off, while others have had them removed. This will allow you to either gather closer or feel safe and comfortable sitting with some distance, while still all of us coming together in one room for congregational worship.**

**~We are allowing the children to play on the indoor playground while complying with the rules that are posted and while parents supervise their children. While masks are not required, socks on their feet are! :-)**

**~Masks are optional during all youth and children services and events or activities.**

**~While food may be served at some of our activities, we are striving to provide a safe and healthy way for everyone to participate. We are doing so by either asking you to bring your own meal to some events, or at others, we are providing a prepackaged meal. Any serving of food will be done by those with masks and gloves.**
